UNIFO4 SHILAJEET CAPSULES

BENEFITS

1. The function of the hypothalamic-pituitary-adrenal axis in our body is thought to be a trigger. Shilajeet may be able to modulate the axis and bring relief to people grappling with CFS. The study also showed that shilajeet can help reverse oxidative damage to cell mitochondria seen in CFS (Chronic Fatigue Syndrome). Mitochondria are involved in the production of energy in the body and shilajeet may be able to protect their integrity and function.
2. Useful for Alzheimer's disease.
3. Useful for low testosterone level and fertility.
4. Useful for chronic fatigue syndrome.
5. Useful for aging and useful for high altitude sickness.
6. Useful for iron deficiency anemia and boosts hemoglobin levels.
7. Shilajeet is also good for bones and can be used to help fight conditions like osteoporosis. It can improve the mechanical strength of bone tissue and bone weight. Its anti-inflammatory properties also make it beneficial for those with rheumatoid arthritis or osteoarthritis. It is said to nourish joints and can ease inflammation and pain associated with these ailments.
8. Improves stamina and battles fatigue.

Composition: Each 500 mg powder

PURE SHILAJEET	Asphaltum Resins	50 MG
ASHWAGANDHA	Withania somnifera	50 MG
SATAWAR	Asparagus racemosus	50 MG
SAFED MUSLI	Asparagus adscendens	50 MG

UNIFO4 THYO-60 TABLETS

The thyroid gland is a vital endocrine (hormone-producing) gland. It plays a major role in chemical reactions in the body (Metabolism), as well as the growth and development. It helps to regulate many body functions by constantly releasing a certain amount of thyroid hormones into the bloodstream.

The most common cause of hypothyroidism is an autoimmune disease called Hashimoto's disease autoimmune diseases happen when the immune system makes antibodies that attack healthy tissues. Sometimes that process involves the thyroid gland and affects its ability to make hormones.

Unhealthy Eating Habits: Foods with low nutritional value are one of the primary root causes of thyroid disorders since it is a nutrient-dependent gland. And the deficiency in these nutrients will negatively affect thyroid hormone production. A well-balanced diet is essential for lifelong thyroid health.

BENEFITS

1. Cinnamon offer anti-inflammatory benefits by inducing tritetrapiolin mRNA expression where there is a presence of pro inflammatory cytokines.
2. Turmeric helps to relieve inflammation naturally. It stimulates thyroid hormone production and balances its level.
3. May be helpful to reduce elevated liver enzyme levels, triglycerides, and cholesterol.

Composition: Each 500 mg powder

SHIITAKE MUSHROOM	Lentinula edodes	300 MG

UNIFO4 UDKAL-30 CAPSULES

Calcium is an essential nutrient needed by all living creatures, including humans. Vitamin D is a prohormone that helps the body absorb calcium, which is essential for bone health. Calcium with vitamin D is a supplement that prevents low levels of calcium and vitamin D. Vitamin D is an essential vitamin that your body uses for normal bone development and maintenance. Vitamin D also helps your nervous system, musculoskeletal system and immune system. Vitamin D3 regulates calcium in the blood. Without vitamin D, the kidneys would excrete too much calcium.

BENEFITS

1. It may be used to treat conditions caused by low calcium levels such as bone loss (osteoporosis), weak bones (Osteomalacia/rickets), decreased activity of the parathyroid gland (hyperparathyroidism), and a certain muscle disease (latent tetany).
2. May also play a role in effective blood clotting.
3. May support lung function and good cardiovascular health.
4. May be useful to insulin regulation and glucose metabolism
5. May be useful for brain, immune, and nervous system health.

According to the National Institutes of Health (NIH), the recommended daily amount of calcium by age group is:

- a) 0–6 months: 200 milligrams (mg)
- b) 7–12 months: 260 mg
- c) 1–3 years: 700 mg
- d) 4–8 years: 1000 mg
- e) 9–18 years: 1300 mg
- f) 19–70 years: 1000 mg (1200 mg for women (51–70 years))
- g) over 70 years: 1200 mg

According to the National Institutes of Health (NIH), the recommended daily amount of vitamin D by age group is:

- a) 0–12 months: 10 micrograms (mcg), or 400 international units (IU)
- b) 1–13 years: 15 mcg or (600 IU)
- c) 14–18 years: 15 mcg or (600 IU)
- d) 19–70 years: 15 mcg or (600 IU)

Composition: Each 500 mg powder

Unifo4 Curcumin, Tulsi and Clove Drops

- Boosts the immune system. Reduces inflammation.
- Relieves colds, coughs, and sore throats.
- Curcumin's anti-inflammatory and antioxidant properties improve heart health.
- Cloves have antibacterial properties. This combination also helps remove toxins from the body and aid digestion.

Benefits of Curcumin Reduces Inflammation:

Curcumin is a powerful anti-inflammatory molecule that helps relieve joint pain and swelling.

Antioxidant Properties: It helps fight free radicals in the body, thereby protecting cells from damage and promoting overall health.

Brain Health: Curcumin may be benefited for mood disorders and could play a role in managing Alzheimer's disease.

Heart Health: It may reduce the risk of heart disease and improve heart health.

Aids in Digestion: Curcumin may aid digestion.

Benefits of Cloves Antibacterial Properties:

The compound eugenol in cloves helps fight harmful bacteria and fungi.

Effective in mouth infections: It is effective in conditions like soreness, burning sensation and ulcers in the mouth caused by excessive tobacco/betel nut consumption.

Oral Health: In Ayurveda, clove is used to treat gum disease, toothaches, and bad breath. Combined.

Combined Benefits Detoxification (removal of toxins from the body): These drops help in flushing out toxins and contaminants from the body.

Reducing Allergies: Some ingredients may also have allergy-reducing properties.

Benefits to skin: It may also be beneficial for the skin. Uses: You can mix a few drops of these drops into warm water or tea and drink it two or three times a day.

Benefits Enhanced Immunity:

The immune-boosting properties of Tulsi and curcumin work together to strengthen the body's immune system.

Synergistic Anti-inflammatory Effects: The anti-inflammatory actions of curcumin are amplified by Tulsi, offering relief for inflammatory conditions.

Holistic Wellness: This combination of Curcumin, Tulsi and Clove may provide comprehensive support for overall health, addressing inflammation, stress, and immune function simultaneously.

Benefits of Tulsi Boosts Immunity:

Tulsi is called the "Queen of Herbs" and it strengthens the immune system, helping to fight infections.

Relief from respiratory problems: It may be effective in cold, cough, sore throat and other respiratory infections, thereby providing relief to the respiratory system.

Reduces stress: Tulsi may help reduce stress and anxiety levels.

Digestive health: It aids digestion and helps reduce gastrointestinal problems.

UNIFO4 AGRI RICH

Humic acid contains a concentration of humic substances in which these components are found: -

- A. HUMIC ACID
- B. FULVIC ACID
- C. HYUMIN

Naturally soil gets humic substances from humus.

Benefits of Humic Acid

1. Effect on plants:
2. Helps in plant growth
3. Helpful in increasing yield and growth of roots.
4. Helpful in removing nutrient deficiencies.
5. Helpful in removing the deficiency of any element in plant metabolism.
6. Helpful in photosynthesis by increasing chlorophyll in plants.

LAND REFORMER

1. Humic acid is also called soil conditioner, which increases the fertility of the soil as well as the air circulation inside the soil. Due to which production can be increased by 15% to 25%.

Helpful in seed purification

1. Before sowing the seeds, soak them in a solution made of humic acid for 1 to 2 hours, which increases the percentage of seed germination.

USAGE AND QUANTITY

1. In foliar spraying, mix 100 ml of humic acid in 100 liters of water and spray it on the leaves.
2. First spraying when leaves start appearing in the plants.
3. Do the second spraying 25 days after the first spraying.
4. Third spraying at the time of vegetative growth, before flowering and fruit appearance..

QUANTITY PER ACRE:

1. Mix 400 ml humic acid with 250 to 300 liters of water and spray.
2. Use 500 ml humic acid mixed with fertilizer for soil purification.
3. Use 100 ml humic acid to treat 20 kg seeds.

PROPOSED CROP:

1. All types of greens and vegetables.
2. All types of fruits and flowers.
3. All types of crops like sugarcane, wheat, jowar, bajra, gram, harhar, uradha, mung, lentils, maize etc.
